FACTORY SNEAK PEAKS

This month, a drone team visited our factory to capture exciting aerial footage of our production in action. The shoot offers a fresh perspective on our craftsmanship and the scale of our operations. Look out for more teasers and the full video release coming soon.

NATIONAL TRADESMEN DAY

This month, we are celebrating National Tradesmen Day, taking the opportunity to thank everyone in our factory for their hard work and dedication. It was a great moment to recognise the skill, commitment, and effort that goes into every project we deliver.

PROJECT PROGRESS

Work is well underway at Victoria, featuring Dekton Entzo panels, Alto Grappa fluted oak cubicles, and oak veneer benches. A sleek, modern scheme that blends durability with natural warmth.

WE ARE NOW ON PINTEREST
