HARMONY IN DESIGN WITH EGGER

EGGER's latest collection embraces the growing demand for calm, contemporary interiors through soft neutral tones, tactile textures and natural finishes. New additions include the PerfectSense Ambiance range, designed to replicate the look of granite and marble with an ultra matt gloss effect, alongside realistic stone decors and warm beige tones. The collection combines premium aesthetics with durable, practical solutions suitable for both commercial and residential environments.

HARD HAT WEEK

This week marks Hard Hat Awareness Week, recognising the importance of safety across construction, manufacturing and site environments. Hard hats remain one of the most essential pieces of PPE on site, helping protect workers every day while reinforcing a strong culture of safety and responsibility across the industry.

MENS HEALTH WEEK

For Men's Health Week this June, we'll be supporting a men's mental health charity to help raise awareness around mental wellbeing and encourage open conversations. More details on our fundraising plans will be shared throughout the month.

PROJECT HIGHLIGHT

A recent project delivered at Lower Marsh featuring Alto Cito laminate WC cubicles with stone tops, alongside lockers, towel stations and shower cubicles. A clean and cohesive finish brought together across the full washroom and end of trip space.
