

# Concrete Vanity

**Arpeggio Concrete vanities are ideal for an on-trend industrial-inspired urban design theme.**

Concrete can be pre-cast and moulded into almost any shape to create a vanity unit bespoke to your project and also benefits from being hardwearing and easy-to-maintain.

- ✓ Pre-cast and moulded concrete vanities can be manufactured with inset or countertop ceramic sinks or as a bespoke trough design
- ✓ Extremely hardwearing and easy to maintain
- ✓ Offers a unique look for each project with different finishes available including polished or matt as well as the option to add glass or stone flecks
- ✓ Ideal for creating a contemporary, industrial-style washroom space
