

Frutti Cubicles

Frutti is a free standing cubicle system manufactured in solid grade laminate (SGL) for maximum durability. In place of a headrail the pilasters are supported by a floor mounted bracket for added rigidity.

Using the latest manufacturing technology, the panels can be machined to produce the impression of a range of different fruits.

- ✓ Free-standing reduced height toilet cubicles
- ✓ Ideal for very young children in schools or leisure facilities
- ✓ Specially shaped cubicle doors provide a fun design
- ✓ Manufactured from SGL in a range of different colours with the option to include screen-printed graphics
