

Tego Units

Tego is a hinged mirror system providing a neat and compact hidden storage solution.

Ideal for vanity essentials such as paper towels, liquid soap, taps, electrical points and cleaning agents, Tego is flexible in both size and finish.

- ✓ Mirrors can be sandblasted or printed with symbols to highlight details such as towels and soap and LED feature lighting can also be incorporated into the design
- ✓ Wall units are manufactured in melamine MDF and can be constructed to any size
- ✓ Mirrors are 6mm deep, set on 18mm backing board and hinged with gas struts for ease of operation
- ✓ Tego is ideally suited to the incorporation of Dolphin or Splashlab accessories, or other third party products as required
